

# SEPRO WIRELESS INPUT / OUTPUT

## SAVE MONEY. MAXIMIZE TIME.

Sepro Wireless Input Output (IO) is a fully integrated package deployable on Sepro supplied Semi-Batch, Continuous, Ultra-Fine Concentrators. It is designed to reduce installation and wiring costs by replacing traditional wiring runs to simplify machine installation.

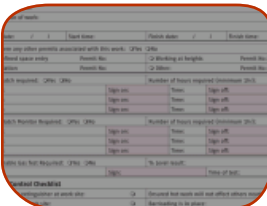

## NO SOFTWARE OR PROGRAMMING REQUIRED

**AVOID TRENCHING**

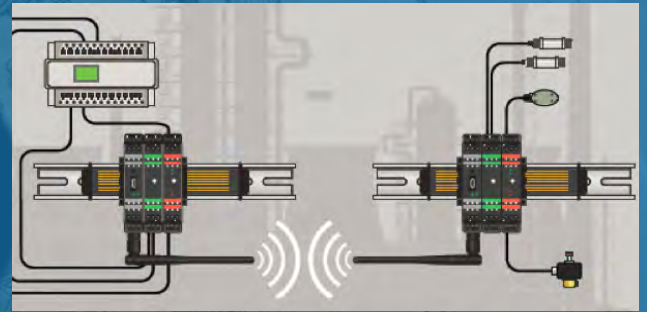

**AVOID CONDUIT  
AND WIRE BURIAL**

**AVOID PERMITTING**

**AVOID EXTRA LABOR**

## KEY ADVANTAGES

- Saves money → Deploys in minutes to reduce installation and wiring time
- High security → Factory paired with 128 Bit Encryption
- Scalable features → Based on application requirements
- Hazardous certified → UL Class 1; Division 2 (Zone)
- Failsafe Input Output → IO will go to a neutral state if radio frequency or IO communications are lost
- No frequency registration required → Applies factory paired wireless radios in the 2.4GHz frequency band
